Gasoline Powered Trash Pumps

Cast iron suction and discharge nipples. Durable and easily replaced if threads are damaged.

Die cast aluminum pump body for light weight and high strength.

Large cleanout cover. Allows easy access without removing suction hoses.

Internal wear parts. Volute and impeller are manufactured of cast iron for long life.

Plastic fill and drain plugs eliminate corrosion between plugs and casing.

Tubular steel frame simplifies handling, and protects pump and engine from damage.

Oil Alert. Robin and Honda engines automatically shut down if the oil level is insufficient.

Stainless steel hardware minimizes corrosion and potential disassembly problems.

Shock mounts isolate vibration and lengthen component life.

QP3TH
